

Test Certificate

erGO! clean

Unger Germany GmbH

The product was extensively tested by the company Hygiene Consult Mück:

- The ergonomic **S** shaped pole with dual rotating grips allows for an intuitive s-motion and all but eliminates user strain and stress on wrists, shoulders and waist.
- The detachable and interchangeable bottle allows users to switch from one cleaning solution to another quickly, with no rinsing required. Enabling user to move from one cleaning area to another.
- No set up time is required, allowing the user to address cleaning issues quickly, proven to be significantly quicker than standard cleaning methods (bucket system).
- The erGO! clean has been designed for professional use and is a high quality complete floor cleaning and finishing tool kit.
